“All it takes is **one minute.**  
And we’re good to go!”

Gentle on the hands, saves lives.

# Alsoft VB

## Hygienic and Surgical Hand Disinfectant

Alsoft VB is a hygienic and surgical hand disinfectant developed by Japan's leader in hand hygiene, Saraya Co, Ltd. Having 2 kinds of alcohol as its active components and Phosphoric Acid, efficacy against a broad spectrum of microorganism can be achieved in a brief contact time with sustaining effect.

### Product Features

#### Formulation

The formulation containing two kinds of alcohol and Phosphoric Acid can achieve excellent bactericidal and virucidal efficacy.

#### Fast-acting antimicrobial agent

- Hygienic handrub within 15 seconds
- Surgical handrub within 60 seconds

#### Effective against a broad spectrum of microorganisms

Kills most common bacteria, yeasts, mycobacteria and viruses

#### Gel-free formula

Does not contain any gelling agents which can cause clogging and leave a sticky after-feel on the skin

#### Contains moisturizers

Moisturizers with excellent skin feel (clean and smooth)

### Product Data

#### Composition
